FURNITURE

Designs for spaces. Spaces to share, spaces to live.

Minio Furniture is a brand of Create Collections and, as it could not be otherwise, it has grown with the same DNA, design, quality and customer service.

We offer seating and table solutions designed, developed and tested, for all types of projects, both for homes and communities.

For over 40 years, we have been creating spaces where people can be, feel, and live. These are the values that define us.

Minio Furniture est une marque de Create Collections qui a été développée avec le même ADN, le même design, la même qualité et le même service au client.

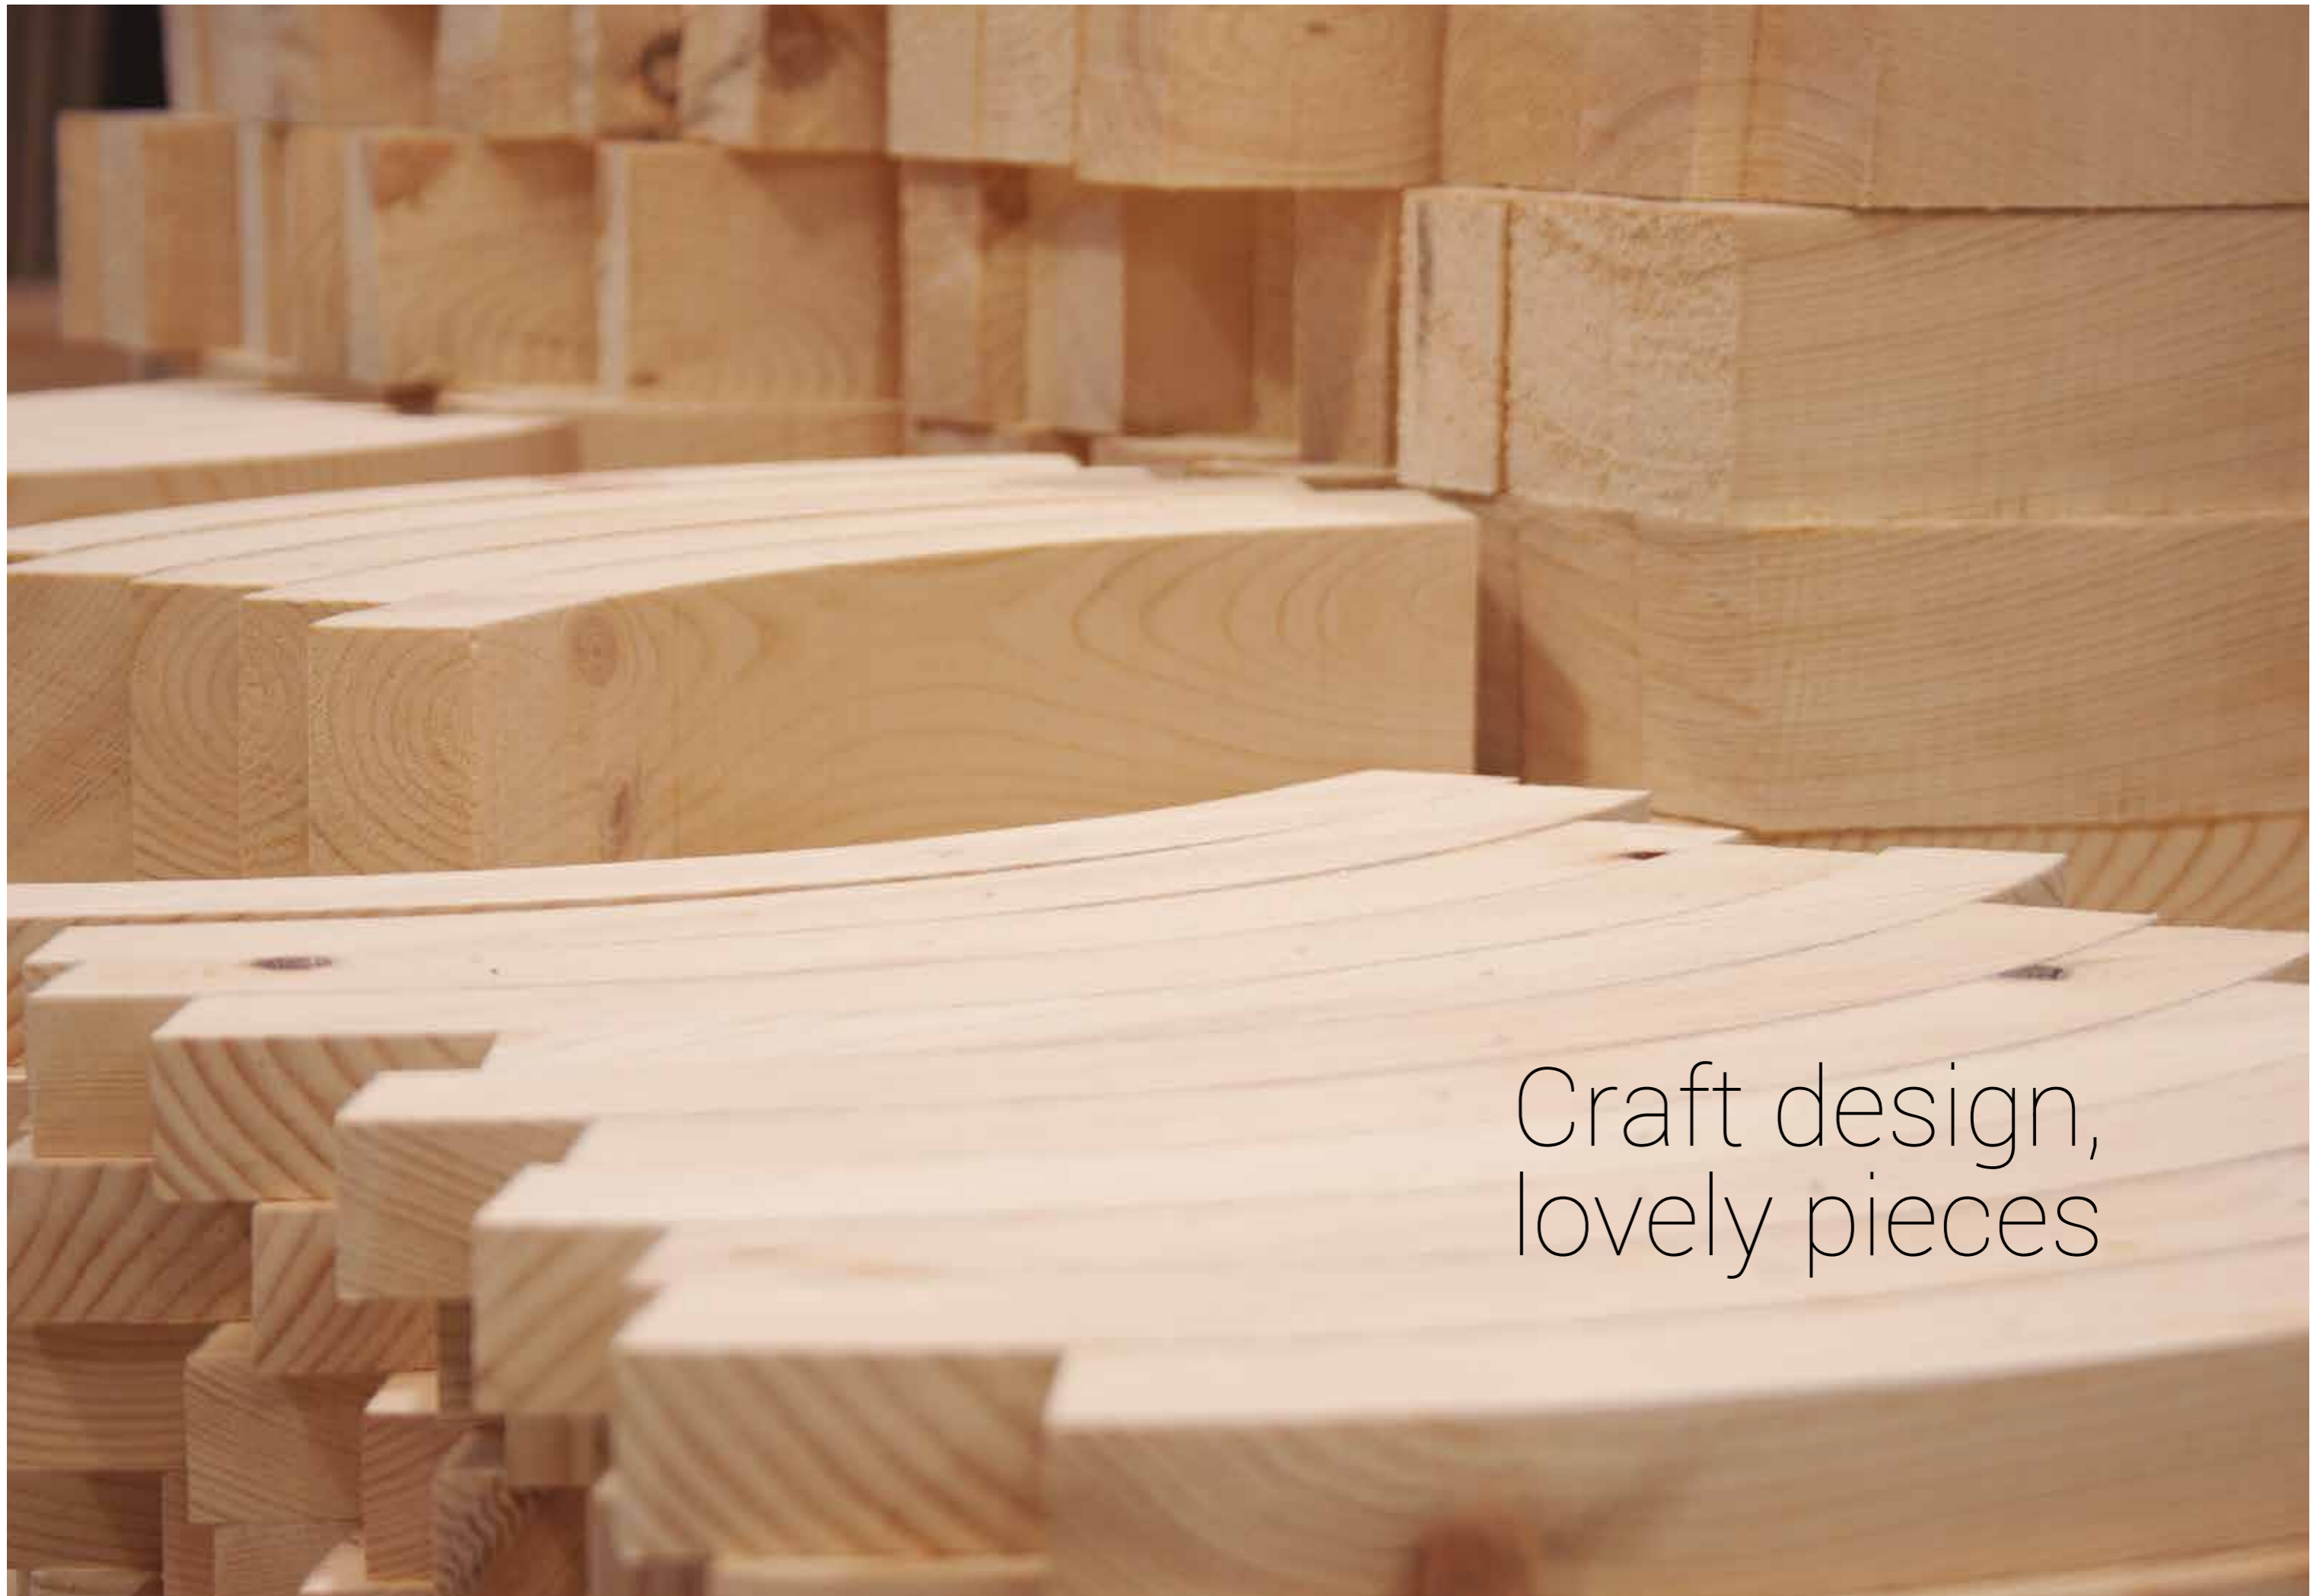

Nous proposons des solutions d'assises et de tables conçues, développées et testées pour tous types de projets, aussi bien pour l'habitat que pour les collectivités.

Depuis plus de 40 ans nous créons des espaces, des espaces pour être, pour sentir, pour vivre. Ce sont les valeurs qui nous définissent.

Minio Furniture es una marca de Create Collections y como no podría ser de otra forma ha crecido con su mismo ADN, diseño, calidad y servicio al cliente.

Ofrecemos soluciones de asiento y mesas pensadas, desarrolladas y testadas, para todo tipo de proyectos, tanto para hogares como colectividades.

Llevamos más de 40 años creando espacios, espacios donde estar, donde sentir, donde vivir. Estos son los valores que nos definen.

SEAT

Arc is a collection that stands out for its careful lines. The backrest is shaped like an arc, and embraces the seat with great delicacy. The ends of this arc are culminated by wooden details that make this model unique. Its wooden structure matches the lines of the collection, drawing soft and subtle shapes that accommodate the upholstered elements. The design has a singular appearance, becoming the protagonist in any space it inhabits.

The Cof Collection, as the name implies, was inspired by coffee beans. With soft, sinuous lines, this model is captivating, discreetly inviting you to sit down. In this design, different materials were used, such as cotton, natural cane and nautical rope, which resulted in a diverse collection with an image and design of refinement. Cof conveys a strong personality, while also being versatile enough to be integrated into any interior design, regardless of the style. All these models are available as a chair and a bar stool, with the option of customizing the back as well as the fabric of the seat.

The Dona Collection is the perfect balance between the 1950s design and Nordic style. This equation resulted in the perfect symbiosis between fine and elegant lines that the region of Northern Europe conveys. The collection includes the chair, arm-chair and bar stool versions. Each typology can be produced entirely in wood or with upholstery, both on the seat and on the back. To complement the collection, there is also an option with natural cane.

The Eve Collection was inspired by Scandinavian design and with a simple linear structure. Even chairs are stackable and have a nautical rope or upholstered backrest, being thus, a versatile collection. Despite its simplicity, the Eve collection has a curved back and, considering the entire structure, it is a technically complex model, however, it does not transmit it, but rather lightness and comfort.

As the name implies, the Nat Collection is inspired by the characteristic shapes of the bamboo forest, the place where we can achieve a relaxed and serene state of mind, taking us back to our origins. This collection's details are achieved through the technique of specialized craftsmen, who manage to go from complex design to a harmonious and refined product. To these products, side cushions can be added if you want extra comfort or that work as a complement to the decoration of the space.

The models in the Nono Collection are inspired by the famous wingback chairs, characteristic of the mid-century design style. They are completely upholstered models, where the seams are an added value that contributes to the refinement of the product. One of the models has the inner back finished with the backstitching technique, a trend that is here to stay.

The Sada line is different due to its details and for having models with an appealing and contemporary design. Inspired by the Nordic style, with a clean image, these models provide the user with excellent comfort. In addition, they complement the space with an elegant design. The Sada was designed combining sophistication with usability.

A simple yet distinctive four legged chair. The leg positioning, its circular seat and the gently curved backrest characterises its architectural and graphic look and feel. Because of its aesthetic reduction in combination with the geometrical round shapes, it becomes almost iconic and sculptural. The Tis chair is available in solid wood with optional upholstered seat and/or backrest.

The Vas Arm Collection is the perfect physical representation of functional design. It is a collection that prioritizes comfort and ergonomics and where the exquisite geometric angles make it touch perfection. Vas Arm is subtle, elegant and classy. It will be the center of attention in the project in which it is inserted, regardless of whether it is a hotel, restaurant or office project.

The Zen chair consists of a dining chair, that fits into any interior design project, whether in restaurants, hotels or in a residential environment. The name Zen comes from a Buddhist term, which refers to the practice of calmness and also state - "just sitting". What characterizes this chair is the design of the lateral lines, where a triangle is located, supporting the structure of the chair.

Information

1. **Ámbito de uso.**

Las encimeras y bases del catálogo de Minio están indicadas para su uso en interiores. El uso en el exterior podría provocar daños estéticos prematuros dependiendo de la intensidad de la exposición a los agentes atmosféricos y de cómo se actúe tras cada ciclo de exposición a dichos elementos.

1. **Champ d'application.**

Les plateaux et les bases du catalogue de Minio sont adaptés à un usage intérieur. L'utilisation en extérieur peut provoquer des dommages esthétiques prématurés en fonction de l'intensité de l'exposition aux agents atmosphériques et de la manière dont le plan de travail est traité après chaque cycle d'exposition à ces éléments.

1. **Scope of use.**

The table tops and bases in Minio's catalogue are suitable for indoor use. Outdoor use could cause premature aesthetic damage depending on the intensity of exposure to atmospheric agents and how the worktop is treated after each cycle of exposure to these elements.

3. **Montaje.**

El montaje de encimeras de madera se ha de realizar con herraje inoxidable o adhesivos adecuados para madera y metal.

3. **Assemblage.**

Les plateaux en bois doivent être montés à l'aide d'accessoires en acier inoxydable ou d'adhésifs adaptés au bois et au métal.

3. **Assembly.**

Wooden table tops should be mounted using stainless steel fittings or adhesives suitable for wood and metal.

2. **Recepción del pedido y almacenamiento.**

Revise el buen estado del embalaje en el momento de la recepción del pedido. Si hubiera daños o anomalías que pudieran haber afectado al material durante el transporte comuníquelo en las 24 horas siguientes a la entrega.

Si por cualquier motivo las encimeras han de permanecer almacenadas o no se pueden montar inmediatamente tras su recepción deberá tener en cuenta estos puntos:

- El almacenamiento de las encimeras se hará siempre con el material embalado y todo el herraje retirado, en posición horizontal sobre una superficie plana y firme que ofrezca un correcto apoyo a toda la superficie del paquete.
- Es necesario preservar el material en un lugar fresco y seco evitando la exposición directa a la luz solar.
- Los paquetes se pueden apilar en altura hasta un máximo de 12 encimeras. No apile encimeras de diferente forma o medida en una misma pila durante periodos largos de tiempo, esto podría provocar deformaciones en el material.

2. **Réception de la commande et stockage.**

Vérifiez que l'emballage est en bon état à la réception de la commande. En cas de dommages ou d'anomalies qui auraient pu affecter le matériel pendant le transport, signalez dans les 24 heures suivant la livraison.

Si, pour une raison quelconque, les plateaux doivent rester en stock ou ne peuvent être assemblés immédiatement après réception, vous devez tenir compte de ces points :

- Le stockage des plateaux doit toujours se faire avec le matériel emballé et tout le matériel retiré, en position horizontale sur une surface plane et ferme qui offre un support correct à toute la surface du paquet.
- Le matériel doit être stocké dans un endroit frais et sec, en évitant l'exposition à la lumière directe au soleil.
- Les paquets peuvent être empilés en hauteur jusqu'à un maximum de 12 plateaux. Ne pas empiler des plateaux de formes ou de tailles différentes dans la même pile pendant de longues périodes, car cela pourrait entraîner une déformation du matériau.

2. **Receipt of the order and storage.**

Check that the packaging is in good condition on receipt of the order. If there is any damage or anomaly that may have affected the material during transport, report it within 24 hours after delivery.

If, for any reason, the table tops have to remain in storage or cannot be assembled immediately after receipt, the following points should be taken into account:

- The storage of the table tops should always be done with the packed material and all the hardware removed, in a horizontal position on a flat and firm surface that offers a correct support to the entire surface of the package.
- The material should be stored in a cool, dry place, avoiding exposure to direct sunlight.
- The packages can be stacked in height up to a maximum of 12 table tops. Do not stack table tops of different shapes or sizes in the same pile for long periods of time, as this could cause deformation of the material.

Information

4. Utilización y mantenimiento de las encimeras y bases.

La limpieza de las encimeras y bases se realizará con un paño humedecido en agua, nunca empapado, y se secará inmediatamente después de cada limpieza.

Cuando sea necesario la superficie se limpiará con un paño suave y agua jabonosa secando seguidamente con un paño seco toda la pieza.

Para la desinfección de las encimeras se deberán utilizar desinfectantes atóxicos adecuados para el uso sobre mobiliario de madera barnizada.

El uso continuado de algunos desengrasantes domésticos puede dañar el barniz. Asegúrese de que usa productos compatibles para la limpieza de maderas tratadas.

En los casos de mesas agrupadas la limpieza se ha de realizar separando las mesas lo suficiente como para limpiar los cantos de las encimeras que quedan en contacto y secando bien estas partes antes de volver a juntarlas.

Nunca se han de apilar mesas dejando en contacto las caras superiores de las encimeras. En esta posición la humedad residual no se evapora de forma natural y puede ser absorbida por la propia encimera causando daños al material.

El uso intensivo de las encimeras puede provocar daños en la capa de barniz que protege la madera. Revise el buen estado de la superficie general de forma periódica y aplique un sellante en las zonas dañadas para evitar la entrada de humedad. Póngase en contacto con su distribuidor para recibir asesoramiento sobre el producto a aplicar más adecuado.

4. Utilisation et entretien des plateaux et bases.

Les plateaux et bases doivent être nettoyés avec un chiffon humidifié à l'eau, jamais trempé dans l'eau, et séché immédiatement après chaque nettoyage.

Si nécessaire, la surface doit être nettoyée avec un chiffon doux et de l'eau savonneuse, puis essuyée avec un chiffon sec.

Pour désinfecter les plateaux, utilisez des désinfectants non toxiques adaptés aux meubles en bois vernis.

L'utilisation continue de certains dégraissants ménagers peut endommager le vernis. Veillez à utiliser des produits compatibles pour le nettoyage du bois traité.

Dans le cas de tables groupées, le nettoyage doit être effectué en séparant les tables suffisamment pour nettoyer les bords des plateaux qui sont en contact et en séchant soigneusement ces parties avant de les remettre ensemble.

Les tables ne doivent jamais être empilées de manière à ce que les dessus des plateaux se touchent. Dans cette position, l'humidité résiduelle ne s'évapore pas naturellement et peut être absorbée par le plan de travail lui-même, ce qui endommage le matériel.

L'utilisation intensive des plateaux peut endommager la couche de vernis qui protège le bois. Vérifiez régulièrement l'état général de la surface et appliquez un produit d'étanchéité sur les zones endommagées afin d'empêcher la pénétration de l'humidité. Contactez votre revendeur pour obtenir des conseils sur le produit le plus approprié à appliquer.

4. Use and maintenance of the table tops and bases.

Table tops and bases should be cleaned with a cloth dampened in water, never soaked in water, and dried immediately after each cleaning.

When necessary, the surface should be cleaned with a soft cloth and soapy water and then wiped dry with a dry cloth.

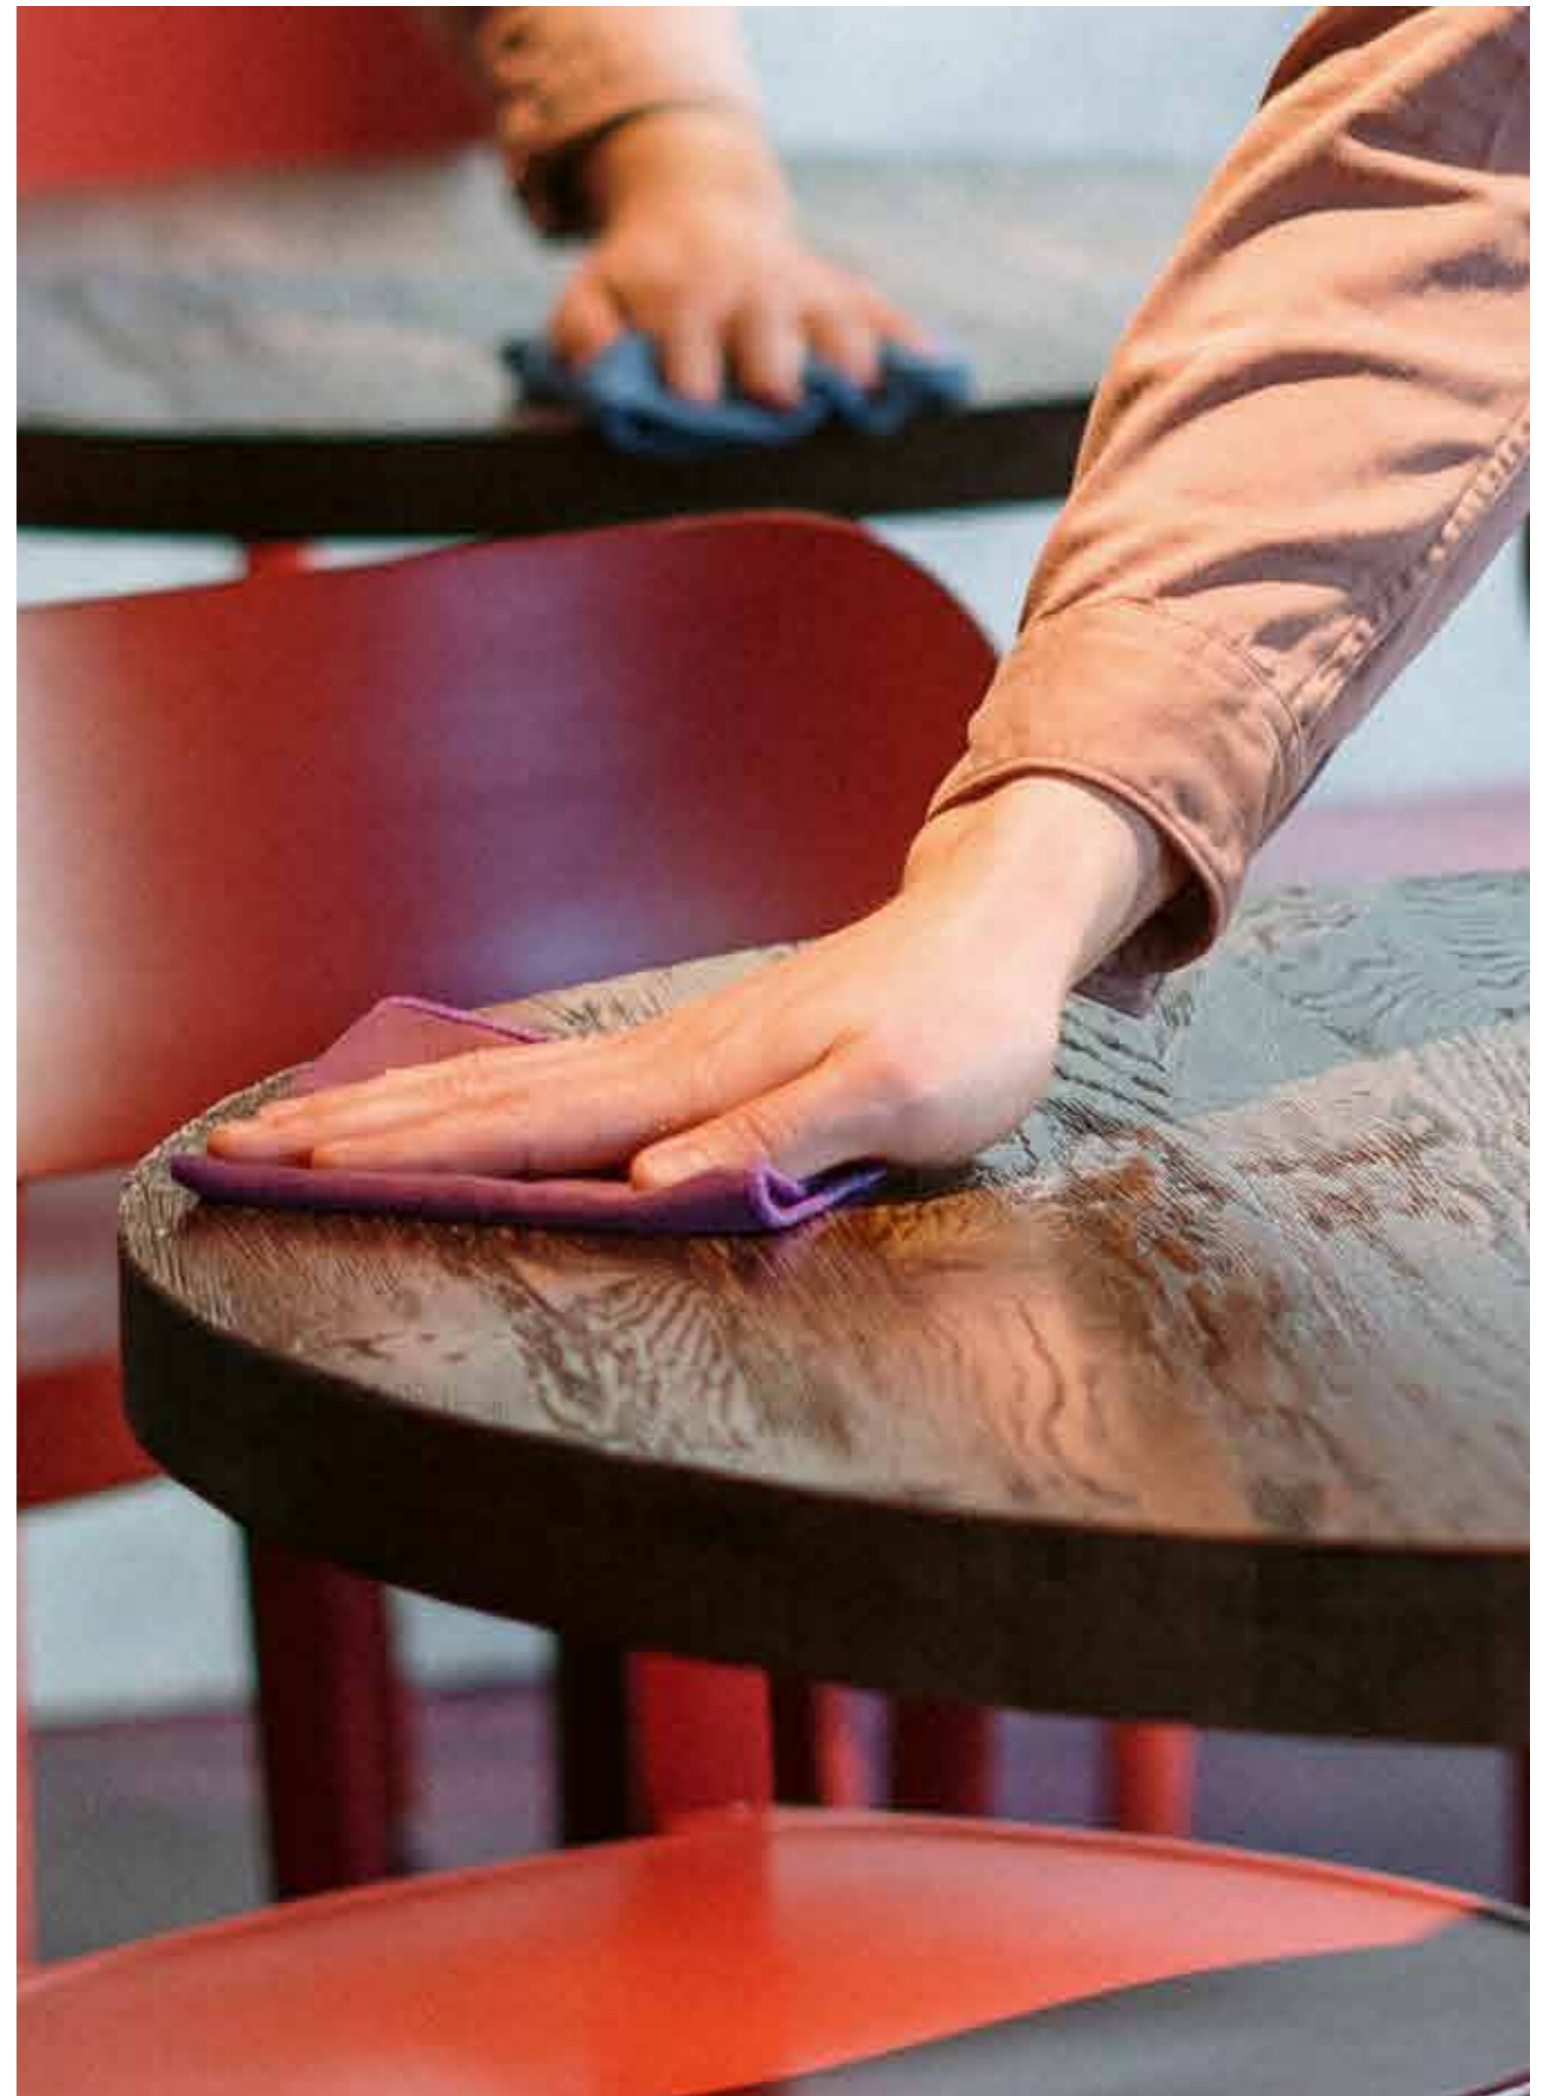

For disinfection of Table tops, non-toxic disinfectants suitable for use on varnished wooden furniture should be used.

The continued use of some household degreasers can damage the varnish. Make sure that you use products that are compatible for cleaning treated wood.

In the case of grouped tables, cleaning should be carried out by separating the tables sufficiently to clean the edges of the Table tops that are in contact and drying these parts thoroughly before putting them back together.

Tables should never be stacked with the tops of the Table tops touching each other. In this position the residual moisture does not evaporate naturally and can be absorbed by the worktop itself, causing damage to the material.

Intensive use of the table tops can cause damage to the varnish layer that protects the wood. Check the general surface condition regularly and apply a sealant to damaged areas to prevent moisture ingress. Contact your dealer for advice on the most suitable product to apply.
